10	System interface management and integration	This module should provide an interface to configure any API integrations with 3 rd parties' applications currently been used by NDB, such as IAM, Business Intelligence and support single sign-on via SAML2.0.
11	Platform Security	Be compliant with Security and Privacy providing data control and encryption.
12	Artificial Intelligence	Configure and train the Artificial Intelligence to highlight possible conflicts, provisions, classification, suggest tags, etc.... Be able to run AI in any document on the platform
13	Push document for signature	Start a new workflow to collect all approvals in the platform and as final step push the final version of the document to be signed by an external platform.
14	Encryption and security	Be able to invoke external source to encrypt and collect digital signature if requested. (API integration)

Annex B

VENDOR COMPANY INFORMATION

Company Information		Response/Detail
1	Company Name	
2	Incorporation location and jurisdiction law	
3	Headquarter location	
4	Number of years in operation	
5	Number of employees	
6	Number of office locations	
7	Provide details about the Vendor’s presence in BRICS	

About the Product –Information

Product Information	Sub	Response/Detail
1	Software product name	General
2	Number of years his product has been in existence	General
3	Share product API documentation	General
4	Provide a summary of the product's high-level modules.	General
5	Where is the support vendor located?	Support
6	What is the size of the support team?	Support
7	What is the process for raising a maintenance request by the Bank?	Support
8	Which BRICS country your SaaS solution is hosted?	Infrastructure
9	What kind of documentation Vendor will deliver along with the product and as part of implementation?	Implementation
10	Number of people involved the product’s R&D	Development
11	Describe product development and/or release methodology. This should explain, but not limited to, major, minor and client-specific release, agile methodology	Development

12	What is the Vendor's major and minor release cycle timing?	Development	
13	Does Vendor perform regression testing for previous versions? What evidence is provided for such tests?	Development	
14	How is your solution priced? Provide a cost estimation. (if solutions are priced by user use 50 users or if it is priced by contracts use 1000 contracts)	Costs
