

Direct-Expansion Evaporative Condensation Equipment Procurement for Phase I of Qingdao Metro Line 6 Project

Prequalification Notice

Contract number: QD-M6-G-015

Project name: Direct-Expansion Evaporative Condensation Equipment
Procurement for Phase I of Qingdao Metro Line 6 Project(second tender)

Project location: West Coast New Area, Qingdao City

Source of funding: Other, contribution proportion: 40% from Finance,
60% from bank loan

Total investment of the project: CNY 19,698,630,000; Estimated cost:
CNY 71,980,000;

Structure Form: Other ; Project Scale: 30.476 km

Plan Document No.: QFGTZS [2019] No. 88

Planning License Number: Planning permit of construction engineering
No. 370200201917274

Bidding company: Qingdao Metro Group Co., Ltd.

Contact person of construction company: Ms. Wei

Telephone number of bidding company: 0532-58625280

Email address of tendering company: 350980884@qq.com

Tendering Agency: Shandong Wanxin Project Management Co., Ltd.

Contact person of tendering agency: Cui Xiaomei

Telephone number of tendering agency: 13127018136

Qualification of tendering agency: Class A

Uniform citywide project code: /

Green Channel Project: Yes No

I. Basic information of the project

1. Project overview: Qingdao Metro Line 6 Phase I Project has 21 stations, including Xintun Road Station, Chaoyangshan CBD Station, Huashan First Road Station, Chuangzhigu Station, Shishan Road Station, Huanghai University Station, Harbour Road Station, Chaoyang Road Station, Emeishan Road Station (which has been implemented synchronously with Line 1), Fuchunjiang Road Station, Qiantangjiang Road Station, Binhai University Station, West Qingyi Hospital Station, Gangtou Station, Huanghe Road Station, West Huaihe Road Station, Keluoshi Station, Zhuamashan Station, Heluobu Station, Zhongde Industrial Park Station and Eco-Park Station, with a length of 30.476km. The total building scale of 20 new stations is 329,362 square meters (including station wiring area and property development area).

2. Tendering content: Evaporative Condensing DX Air Conditioning System (including evaporative condenser, fully automatic integrated water-treatment device, DX evaporative air-treatment unit, energy-saving central air conditioning control cabinet, software, instrumentation, vehicle-mounted electronic control cabinet, communication and control cables connecting the energy-saving central air-conditioning control cabinet and each subordinate

equipment) and the related accessories supply, on-site assembly, installation guidance, installation training, installation quality inspection, commissioning and acceptance, quality assurance services, as well as other services (for example design, design liaison, design review, prototype acceptance, factory acceptance, training, etc.) for each station of Phase I of Qingdao Metro Line 6 Project (a total of 20 stations excluding metro depot, Emeishan Road Station and main substation). Please see the user requirements for details.

II. Requirements to be met by the prequalification applicants (hereinafter referred to as "Applicants"):

1. Manufacturing enterprises with independent legal personality;
2. Applicant shall have at least one completed similar project performance in the last five years;
3. Any subsidiary institution (unit) of the bid inviter that does not have independent legal personality, or any legal person and any subsidiary institution (unit) that provides consulting services for the preliminary work of the project, or any legal person with an interest in the bid inviter that may affect the fairness of the bidding, are not eligible to apply for prequalification of this project. Companies with the same principal or different companies with holding or administrative relationships shall not apply for the prequalification of the project at the same time. In case of any foregoing circumstances, the companies shall negotiate amicably and select an applicant to apply for the prequalification. If the applicant cannot be selected on time, the bid inviter has the right to reject the prequalification qualification of the relevant applicant.

4. This project is open to all applicants registered in the NDB member states; all applicants from the NDB member states with corresponding abilities can apply for prequalification of this project;

5. The applicant shall not be an unqualified applicant sanctioned by the host government;

6. This project does not accept the applications for prequalification from dealers and agents.

III. Requirements for consortium bidding

The project does not accept the applications for prequalification from the consortium.

IV. Requirements for bid sections

This project is not divided into bid sections.

V. Methods of qualification examination

The prequalification of the project adopts limited number system. After preliminary examination and detailed examination, all qualified applicants shall participate in the bidding with the number of qualified applicants below 9 (included); the prequalification committee shall score and select the top 9 (if any, the both 9th applicants with the same scores shall be selected) qualified applicants to participate in the bidding with the number of qualified applicants above 9.

VI. Bid evaluation method

This project adopts "Comprehensive Evaluation Method" to determine the pre-winning bid candidate.

VII. Requirements for experience in similar projects

Applicant shall have at least one completed similar project performance in the last five years

2. The applicants shall provide materials to prove the similar engineering experience when participating in the prequalification meeting, otherwise, the prequalification will fail in the qualification review or the corresponding scoring items will not be scored.

3. Definition of similar projects: the supply performance of evaporative condensing chillers or evaporative condensing DX air conditioning system in construction projects.

VIII. Acquisition of prequalification documents

From 9:00 on 31 August, 2022, companies interested in prequalification for the project can download the prequalification documents directly through “Download” module from <http://ggzy.qingdao.gov.cn>, without registration.

IX. Time and place for submission of prequalification documents

Place of submission: Qingdao Civic Center (No.27 Public Resources Trading Center, No. 17 Fuzhou South Road, Shinan District, Qingdao City).

Deadline for submission of prequalification documents: 9:30 on September 15th, 2022.

X. Others

1. There is no confidential content in the project.
2. NDB loans are used for the project. Applicants from other NDB member states other than the People's Republic of China can send the

encrypted prequalification documents to the e-mail (qd6haoxian@126.com) of Shandong Wanxin Project Management Co., Ltd. before the deadline for submission of prequalification documents, and send the password of prequalification documents to the e-mail (qd6haoxian@126.com) of Shandong Wanxin Project Management Co., Ltd. at 9:30 a.m. to 10:00 (Beijing Time) on September 15th, 2022. When the applicant uses only electronic documents for bidding, the electronic documents shall be signed and sealed and scanned into PDF format in accordance with the requirements of the prequalification documents. Representatives of all applicants are invited to attend the prequalification meeting on a voluntary basis. Representatives attending the prequalification meeting shall check in the list of participants.

3. Complaint hotline: 0532-85066759

E-mail: jgjgcc@qd.shandong.cn

Address: No. 121 Macau Road, Shinan District, Qingdao City

4. Online technical support: 0532-85871505-5

5. The previous year refers to the period from the issuance date of notification of project tendering to January 1 of the previous year, and the last two years refers to the period from the issuance date of notification of project tendering to January 1 of the previous two years, and so on.
