I. Basic Information of the Project

1. Project overview: Qingdao Metro Line 6 Phase I Project has 21 stations, including Xintun Road Station, Chaoyangshan CBD Station, Huashan First Road Station, Chuangzhigu Station, Shishan Road Station, Huanghai University Station, Harbour Road Station, Chaoyang Road Station, Emeishan Road Station (which has been implemented synchronously with Line 1), Fuchunjiang Road Station, Qiantangjiang Road Station, Binhai University Station, West Qingyi Hospital Station, Gangtou Station, Huanghe Road Station, West Huaihe Road Station, Keluoshi Station, Zhuamashan Station, Heluobu Station, Zhongde Industrial Park Station and Eco-Park Station, with a length of 30.476km. The total building scale of 20 new stations is 329,362 square meters (including station wiring area and property development area).

2. Bidding content: Supply of the following three parts of equipment and related supporting services: centralized UPS power supply equipment, standby

EPS lighting power supply equipment, and AC/DC power supply equipment. Among them, the centralized UPS power supply equipment shall be installed in all stations and control centers of the main line (including 42 sets of 60KVA equipment, 1 set of 100KVA equipment, 2 sets of 250KVA equipment and the corresponding supporting batteries); the standby EPS lighting power supply equipment shall be installed in all new stations of the main line (including 14 sets of 5KVA equipment, 21 sets of 10KVA equipment, and 5 sets of 15KVA equipment); the AC/DC power supply equipment shall be installed in all substations of the main line and the vehicle base (including 16 sets of type-A equipment and 6 sets of type-B equipment). Please see the user requirements for details.

II. Requirement shall be met by the prequalification applicants (hereinafter referred to as "Applicant"):

1. Manufacturing enterprises of power supply equipment with independent legal personality;
2. Applicant shall have at least one completed similar project performance in the last five years;
3. Any subsidiary (company) of the Bidder that does not have the independent legal person status, any legal person providing consulting service for the preliminary work of the Project and any of its subsidiary (company) or

any legal person having an interest with the Bidder that may affect the fairness of bidding shall not be eligible to apply for the prequalification; companies with the same principal or companies with holding or management relations shall not apply for the prequalification for the same bid section of the Project at the same time. In case of any of the foregoing circumstances, the Applicant shall negotiate and select one applicant to participate in the prequalification during the period. If the Applicant cannot be selected on time, the Bidder has the right to reject the qualification of the relevant Applicant;

4. The Project is open to all applicants registered in the Member States of New Development Bank; Applicants from the States with appropriate capabilities may apply for the prequalification;

5. The Applicant shall not be an unqualified applicant sanctioned by the host government.

III. Bidding Requirements of Consortium

This project does not accept pre-qualification application for consortium.

IV. Requirements for Bid Section

This project is not divided into tender sections.

V. Methods of Qualification Examination

The prequalification of the project adopts limited number system. After preliminary examination and detailed examination, all qualified applicants shall participate in the bidding with the number of qualified applicants below

9 (included); the prequalification committee shall score and select the top 9 (if any, the both 9th applicants with the same scores shall be selected) qualified applicants to participate in the bidding with the number of qualified applicants above 9.

VI. Bid Evaluation Method

"Comprehensive Evaluation Method" is adopted by the Project to determine the pre-winning candidate.

VII. Experience Requirements of Similar Projects

1. The Applicant shall have at least one completed similar project performance in the last five years;

2. When the pre-qualification applicants participate in the prequalification meeting, they shall provide materials to prove the similar engineering experience; otherwise, the pre-qualification applicant will fail in the qualification review or the corresponding scoring items shall not be scored.

3. Definition of similar projects: Supply performance of 60KVA and above UPS power supply equipment.

VIII. Acquirement of Prequalification Documents

Companies wishing to participate in the prequalification of the Project may download the prequalification documents directly in the download column of the prequalification documents of Qingdao Public Resources Transaction Electronic Service System (<http://ggzy.qingdao.gov.cn>) of the national public resource trading platform (Qingdao, Shandong) from 9:00 on August 29, 2022 without registration.

IX. Time and Place of Submission of Prequalification Application

Documents

1. Deadline for submission of prequalification application documents: 9:30 on September 15, 2022

2. Place of submission: Qingdao Citizen Center (No.27 Public Resources Trading Center, No.17 of Fuzhou South Road, Shinan District)

X. Other Matters
